

The Centre de Recherche Public - Gabriel Lippmann, a fast growing public establishment for applied scientific research and technology transfer, has an opening on a permanent contract basis for its department "Science and Analysis of Materials" (SAM) that focuses in the following fields: characterization of materials, surface treatment and thin films, instrumental developments, nanotechnologies and nanomaterials, for

**a Physicist specialized in charged particle optics (m/f)**  
**(ref: SAM-090312-CHRECPO)**  
***starting date: July 2012***

Mission

The successful candidate will have to:

- Participate in R&D projects related to the development of scientific instruments based on charged particle beams (ion sources and columns, electron sources and columns, mass spectrometers, detectors,...),
- Interact with instrument manufacturers in the framework of joint R&D projects and in view of valorising the developments performed within the research projects,
- Interact with academic partners in the framework of joint R&D projects,
- Communicate on the generated scientific results (conference, scientific publications, symposium...),
- Write scientific and technical reports and documents

Profile

- PhD in Physics with a special emphasis on charged particle optics
- Minimum of 5 years of experience in charged particle optics (simulations and experimental) and instrumental development acquired during PhD thesis and after in the frame of employments in R&D
- Experience with SIMION and/or LORENTZ charged particle optics simulation software together with knowledge in data processing and software programming is mandatory
- Experience in designing mass spectrometers and/or ion sources
- Strong experimental skills
- Fluency in English (scientific exchanges) is a must, knowledge of French (administrative language) would be an asset
- Excellent communication, organisational and interpersonal skills with a mandatory team-spirit

Candidates who are interested in the above positions should send their application (with the above reference) including CV, motivation letter and names of 2-3 referees and the reference either by e-mail to [recrutement@lippmann.lu](mailto:recrutement@lippmann.lu) (format: .doc or .pdf) or by mail to:
